

Assignment 4

Assignment date	12 - 11 - 2022
Student name	Snegha sri R
Student roll no	711719205050
Team ID	PNT2022TMID31773

Question 1:

Pull an image from docker hub and run it on docker playground.

Solution 1:

```
docker pull uifd/ui-for-docker
```

```
docker run -d -p 9000:9000 --privileged -v /var/run/docker.sock:/var/run/docker.sock uifd/ui-for-docker
```

The screenshot shows a web browser window displaying the Docker Hub page for the repository `uifd/ui-for-docker`. The page header includes the Docker Hub logo and navigation links. The repository page shows the name `uifd/ui-for-docker` with a star icon and a pull count of 10M+. Below this, it states "By uifd • Updated 6 years ago" and "A web interface for Docker, formerly known as DockerUI. Deprecated, use Portainer for new features." There are tabs for "Overview" and "Tags". The "Overview" tab is active, showing a message: "This repo is deprecated. Development continues at: [portainer/portainer](#)". Below this, there are links for "chat" and "on github". A section titled "Goals" lists: "Minimal dependencies - I really want to keep this project a pure html/js app." On the right side, there is a "Docker Pull Command" box containing the command: `docker pull uifd/ui-for-docker`.

Docker playground:

The screenshot shows the Docker Playground interface in a web browser. The browser's address bar displays the URL: `labs.play-with-docker.com/p/cdjth7m0qau000esrdp0#cdjth7m0_cdjthk60qau000esrdpg`. The interface includes a sidebar on the left with a digital clock showing 03:53:41, a 'CLOSE SESSION' button, and an 'Instances' section with a '+ ADD NEW INSTANCE' button and a list of instances (192.168.0.8, node1). The main area displays the instance details for 'cdjth7m0_cdjthk60qau000esrdpg', including its IP (192.168.0.8), memory, CPU, and an SSH command: `ssh ip172-18-0-53-cdjth7m0qau000esrdp0@direct.labs.play`. Below this is a terminal window showing the following commands and output:

```
[model] (local) root@192.168.0.8 ~
$ docker images
REPOSITORY          TAG             IMAGE ID        CREATED         SIZE
uifd/ui-for-docker  latest         965940f98fa5   6 years ago    8.1MB
[model] (local) root@192.168.0.8 ~
$ docker run -d -p 9000:9000 --privileged -v /var/run/docker.sock:/var/run/docker.sock uifd/ui-for-docker
ab4812e7bf2cde4f33b05baac16b2857aedb359141e1e8be944f7149b10c9a37
[model] (local) root@192.168.0.8 ~
$
```

Docker UI:

The screenshot shows the Docker UI interface. The top navigation bar includes tabs for Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info, along with a 'Refresh' button. The main content area is divided into two sections: 'Running Containers' and 'Status'. The 'Running Containers' section shows a list of containers, including 'serene_keller' which is 'Up 17 seconds'. The 'Status' section features a donut chart showing the status of containers: Running (green), Stopped (red), and Ghost (grey). Below the donut chart, there are two line graphs: 'Containers created' and 'Images created', both showing a count of 1 over time (04/11/2022).

Question 2:

Create a docker file for the job portal app or hello world app and deploy it in docker desktop app.

Solution 2:

DockerFile

Dockerfile - Notepad

File Edit Format View Help

```
FROM python:3.8
WORKDIR /app
ADD . /app
COPY requirements.txt /app
RUN python3 -m pip install -r requirements.txt
EXPOSE 5000
CMD ["python", "app.py"]
```

Bulid Docker image

```
C:\Windows\System32\cmd.exe

E:\Study materials\Sem 7\IBM\Exercise\Assignment4>docker build -t hello-world .

Tested it using Docker playground

The screenshot shows the Docker Playground interface. On the left, there's a sidebar with a clock showing 03:09:45, a 'CLOSE SESSION' button, and a list of instances. The main area displays details for a container named 'cdi0ji60_cdi18b63tccg00fmtsog' with IP 192.168.0.13. It shows memory usage (27.73%) and CPU usage (0.16%). Below this, there's an SSH terminal window showing the container's output. The output indicates that the container is running a Flask app on port 5000. The terminal text is as follows:

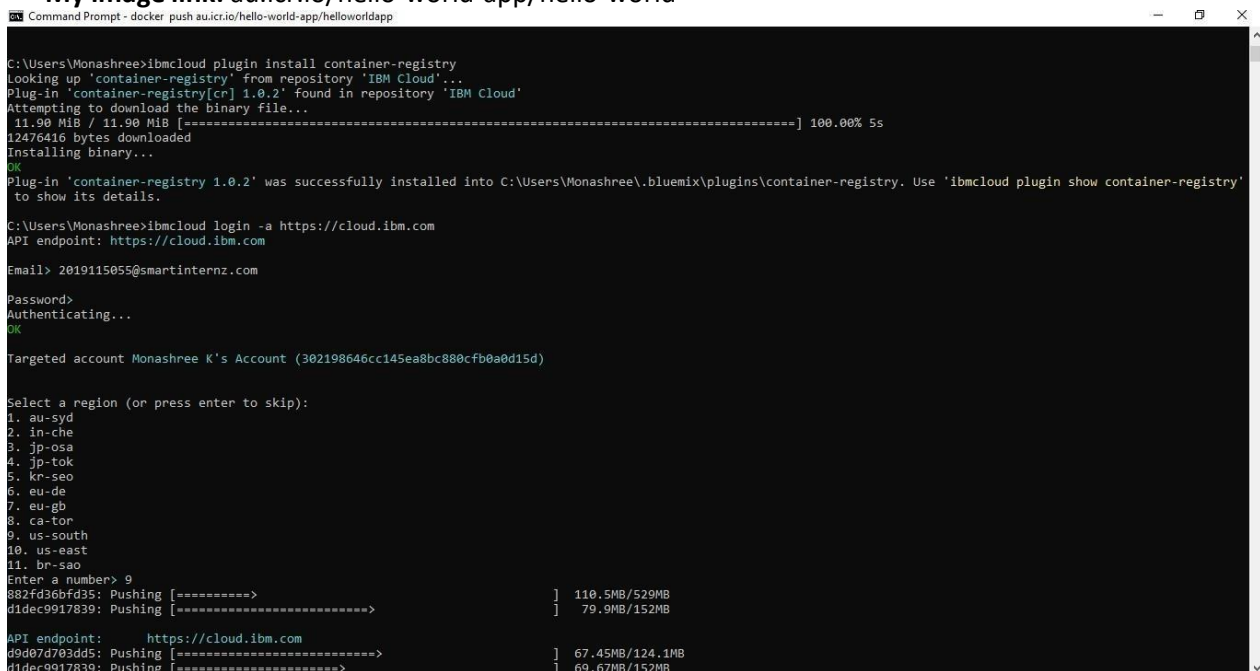

```

Question 3:

Create an IBM container registry and deploy helloworld app or job portal app.

Solution 3:

My image link: au.icr.io/hello-world-app/hello-world

The screenshot shows a Command Prompt window with the following commands and output:

```
Command Prompt - docker push au.icr.io/hello-world-app/helloworldapp

C:\Users\Monashree>ibmcloud plugin install container-registry
Looking up 'container-registry' from repository 'IBM Cloud'...
Plug-in 'container-registry[cr] 1.0.2' found in repository 'IBM Cloud'
Attempting to download the binary file...
11.90 MiB / 11.90 MiB [=====] 100.00% 5s
12476416 bytes downloaded
Installing binary...
OK
Plug-in 'container-registry 1.0.2' was successfully installed into C:\Users\Monashree\bluemix\plugins\container-registry. Use 'ibmcloud plugin show container-registry' to show its details.

Question 4:

Create a kubernetes cluster in IBM cloud and deploy helloworld image or jobportal image and also expose the same app to run in nodeport.

Solution 4:

<https://raw.githubusercontent.com/itsmona14/IBM-Assignment-cloud/main/deployment.yaml>

```
apiVersion: v1
kind: Service
metadata:
  name: hello-world-deployment
spec:
  ports:
    - port: 5000
      targetPort: 5000
  selector:
    app: hello-world
---
apiVersion: apps/v1
kind: Deployment
metadata:
  name: hello-world-deployment
spec:
  replicas: 1
  selector:
    matchLabels:
      app: hello-world
  template:
    metadata:
      labels:
        app: hello-world
    spec:
      containers:
        - name: hello-world
          image: au.icr.io/hello-world-app/hello-world
          imagePullPolicy: Always
          ports:
            - containerPort: 5000
```

The screenshot displays the IBM Cloud Kubernetes Dashboard for a cluster named 'mycluster-free'. The cluster is in a 'Normal' state and is scheduled to expire in 29 days. The dashboard provides a detailed overview of the cluster's components and configuration.

Cluster Overview:

- Node status:** 1 of 1 nodes are Normal.
- Add-on status:** 0 of 0 add-ons are Normal.
- Master status:** Normal.
- Ingress status:** Unknown.

Details:

Cluster ID	Version	Infrastructure	Zones
cd1c430cf0a6mchav0k1g	1.24.7_1542	Classic	Milan 01

Additional Information:

- Created:** 04/11/2022, 01:12
- Resource group:** Default
- Image security enforcement:** Enable
